

Edition: BP 2025 (Ph. Eur. 11.6 update)

Liquid Preparations for Cutaneous Application of the British Pharmacopoeia (Veterinary)

[General Notices](#)

In addition to the above requirements of the European Pharmacopoeia, the following statements apply to any dip concentrate that is the subject of an individual monograph in the British Pharmacopoeia (Veterinary).

DIP CONCENTRATES

DEFINITION

When diluted, Dip Concentrates are used for the prevention and treatment of ectoparasitic infestations of animals. The diluted preparations are applied by complete immersion of the animal or, where appropriate, by spraying.
