Effective Support Without Excessive Levels

Because Pregnacare® has been specially formulated by experts for pregnancy, it contains certain nutrients at levels above the Nutrient Reference Value (NRV). All ingredient amounts are within safe levels for pregnancy.

- ✓ To protect your growing child, Pregnacare® avoids excessive levels of iron and other nutrients.
- ✓ Pregnacare® does not contain vitamin A, as high levels are not advised in pregnancy.
- ✓ Includes 10µg vitamin D3, the exact level recommended by experts for pregnancy.

Nutritional care for mother and baby

Worldwide studies have shown that extra specific nutrients such as folic acid and vitamin D may be necessary before and during pregnancy. **Pregnacare®** has been carefully developed to help safeguard dietary requirements, from the start of trying to conceive and during all of pregnancy.

More than folic acid - for an all-round healthy pregnancy

Formulated by Vitabiotics nutritional experts, to include 19 important vitamins and minerals. With **400µg folic acid** and **10µg vitamin D3**, the exact daily levels as recommended by the UK Department of Health.

Trusted support for mum's health

Pregnacare® contains a comprehensive formula to help safeguard all round health and vitality, as well as important nutrients for pregnancy. Folic acid contributes to **maternal tissue growth** during pregnancy. The unique formula also includes zinc which contributes to normal **reproductive health**.

Effective support without excessive levels

To protect your growing child, **Pregnacare®** avoids excessive levels of iron and other nutrients. **Pregnacare®** does not contain vitamin A, as high levels are not advised in pregnancy.

Prof. A. H. Beckett OBE, PhD, DSc
 (1930-2010)
 Professor Emeritus, University of London
 Prof. Beckett is cited as a product inventor and former Chairman of Vitabiotics.

DIRECTIONS

ONE TABLET PER DAY, WITH YOUR MAIN MEAL. Swallow with water or a cold drink and take with a main meal. **Not to be chewed. Do not exceed recommended intake. To be taken only on a full stomach.**
You can start taking Pregnacare® at any point during pregnancy.
 This comprehensive formula replaces other **Pregnacare®** supplements and multivitamins. There is no need to take an additional multivitamin.

30 Tablets/30 days supply
FOOD SUPPLEMENT

Food supplements must not replace a varied and balanced diet and a healthy lifestyle.

As with other food supplements, seek professional advice before using if you are under medical supervision or suffer from food allergies.

Allergy Advice: For allergens, see ingredients in bold on base of carton. As **Pregnacare®** contains vitamin K, if you are taking oral anticoagulants (e.g. warfarin) do not take **Pregnacare®** except on the advice of a doctor. Vitamin K is not known to specifically interact with the action of aspirin or heparin.

The prenatal multivitamin brand midwives recommend most.

This product contains iron, which, if taken in excess, may be harmful to very young children.

Store below 25°C in a dry place, out of sight and reach of children.
